The store has also been a regular participant at the Dubai Design Days

Leading lifestyle and design boutique Cities which recently opened a second outlet at the Dubai Mall is also all geared up to participate in the Dubai Design Days with some fabulous exhibits. Now in its fifth year, Design Days Dubai is an annual event which presents limited edition furniture and design objects gathered from some of the leading international designers and galleries from all across the world. It also provides a source of knowledge and education about the design sector through a series of workshops, installations, and live performances.

Focusing on the theme, "Orientalism Reinterpreted", highlights of the Cities' display include new designs by Lebanese designer Khaled El Mays which were created specifically for Cities and this theme, as well as the art installation "L'Ouvert et L'Horizon," from Lebanese group Hawini, and the Enxoval cabinet from Portuguese creators Alma de Luce.

The new location of the store on the lower ground level, located near the fountain at the Dubai Mall, will carry the same diverse designs, home décor, accessories, art and furniture that Cities customers know and love. Once again, the store design has been

created by Lebanese Interior design firm AskDeco, to ensure that the appearance reflects the same Cities' style that has attracted such a strong clientele.
